Introduce Innovation into Your Care

Access real-time data, streamline communication, and improve patient experience with the highly innovative and dependable Lenovo Tab K10. Protect it while delivering the highest level of care with the proven rugged xCase for Lenovo from MobileDemand.

Empowering Providers to offer Convenient and Personalized Care

From patient check-in to virtual visits, the Tab K10 with rugged xCase will help you elevate quality of care with ease.

Rugged

We know accidents happen. And downtime can mean interrupted care and unsettled patients. That's why each case we design must survive a series of rigorous military standard tests for proven ruggedness.

Mobile

Healthcare is evolving faster than ever before, and mobility is proving to be most critical for firstline workers. It's why we equip the Tab K10 xCase with an easy carry briefcase handle and back hand strap, enabling providers and staff to work quickly and efficiently.

Mounting

Every case is equipped with the patented snap mount plate. Used in conjunction with MobileDemand's snap rail and RAM® products, unlimited mounting solutions are possible. From kiosks to walls to counter tops we make safe, secure, reliable mounting a snap.

Deploy the Tab K10 with Rugged xCase into the Healthcare Setting

CHALLENGES

- » Data capture is manual, time consuming, and prone to human error.
- » Check-in processes are cumbersome for both staff and patients.
- » Lacking the equipment necessary to support care either off-site or virtually.

SOLUTIONS

- » Collect accurate data, maximize workflow efficiency, and speed up lines when data capture is automated with a tablet.
- » Streamline patient check-in by replacing paper forms with a self-service tablet—improving speed and experience in the waiting room.
- » Providing care wherever your patients choose is possible with a mobile tablet that supports virtual care as well as seamless floating from the clinic to the hospital, or even a patient's home.

Virtual Healthcare

Healthcare delivery is on the move and virtual healthcare is soaring. Ruggedized tablets are a simple and affordable solution for connecting with patients and enhancing their experience. With the ability to support a wide array of healthcare software solutions, providers can rely on the Tab K10 to improve workflow, increase efficiency and expand data accessibility for their mobile care workforce.
