Dimensioning Anywhere

Modern, mobile, multi-mode dimensioning

BOXES

IRREGULARS

PALLETS

OVERSIZED

SMALLS

Quickly and accurately capture dimensions anywhere with xDIM. The mobile solution enables an entirely new workflow with the ability to capture all necessary data at the product location, even at the upper levels of the shelving.

Simply aim a MobileDemand rugged tablet with integrated 3D camera at the item for instant dimension capture.

xDIM goes where you go—whether you're near the rafters or on the warehouse floor.

WeighSmarter

The xScale S200 is the portable and convenient smart solution for the modern warehouse. Capture item weight anywhere with the mobile xScale S200. The lightweight, collapsible arms open to an innovative Y-shape on which items are placed for weighing.

About MobileDemand

Since 2003, MobileDemand has been a technology leader in rugged tablets and mobile computing solutions, committed to bringing more functionality and capabilities to the mobile workforce. Specializing in the design of integrated productivity tools for barcode scanning, point of sale, magnetic stripe reading, PIN pad entry, 3D and thermal imaging, box dimension measurement, and mounting hardware for a myriad of on-the-go applications, the company is driving the future of mobile productivity.

4DMobile, a companion company of MobileDemand, develops game-changing software such as xDIM Mobile Dimensioning with a mission to elevate workforce productivity and optimize space with innovative and convenient computer vision and mobile applications.
